

Worksheet 9: Essay planning

Identify four points that would support the view in the given question.

For each of these points give sociological evidence that supports the point.

Then do the same for points against the view and support these with evidence.

This will give a structure for your essay that then just needs the points to be developed.

Question:			
Points to support the view in the question		Points against the view in the question	
Point	Evidence	Point	Evidence
