GLOBAL PERSPECTIVES**0457/13**

Paper 1 Written Exam

October/November 2025

MARK SCHEME

Maximum Mark: 70

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2025 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **21** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**Social Science–Specific Marking Principles
(for point–based marking)****1 Components using point–based marking:**

- Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.

From this it follows that we:

- a** DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
- b** DO credit alternative answers/examples which are not written in the mark scheme if they are correct
- c** DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list–type answers. For example, questions that require n reasons (e.g. State two reasons ...).
- d** DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
- e** DO NOT credit answers which are obviously self–contradicting or trying to cover all possibilities
- f** DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
- g** DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)

2 Presentation of mark scheme:

- Slashes (/) or the word 'or' separate alternative ways of making the same point.
- Semi colons (;) bullet points (•) or figures in brackets (1) separate different points.
- Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).

3 Calculation questions:

- The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
- If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
- Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
- Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

Annotations guidance for centres

Examiners use a system of annotations as a shorthand for communicating their marking decisions to one another. Examiners are trained during the standardisation process on how and when to use annotations. The purpose of annotations is to inform the standardisation and monitoring processes and guide the supervising examiners when they are checking the work of examiners within their team. The meaning of annotations and how they are used is specific to each component and is understood by all examiners who mark the component.

We publish annotations in our mark schemes to help centres understand the annotations they may see on copies of scripts. Note that there may not be a direct correlation between the number of annotations on a script and the mark awarded. Similarly, the use of an annotation may not be an indication of the quality of the response.

The annotations listed below were available to examiners marking this component in this series.

Annotations

Annotation	Meaning
✓	Correct, creditworthy point
✗	Incorrect point
?	Unclear point
EXP	Explanation
EVAL	Evaluation
E	Evidence (from source or own knowledge)
J	Judgement
M	Methods of Research
P	Perspective
R	Reason/Reasoning
BOD	Benefit of doubt given
▲	Omission mark, more required
~~~~~	Not Relevant
REP	Repetition
NAQ	Not Answered Question
SEEN	Page or response seen by examiner
Highlighter	Identification of a point

Question	Answer	Marks
1(a)	<p><b>According to Source 1, which food type has the highest percentage of food wasted?</b></p> <p>Main Annotations  </p> <p>From Source 1, candidates are expected to identify:</p> <ul style="list-style-type: none"> <li>• Fruits and Vegetables</li> </ul> <p>Award 1 mark for the correct answer.</p>	1
1(b)(i)	<p><b>Identify <u>one</u> example of a generalisation from Source 2.</b></p> <p>Main Annotations  </p> <p>From Source 2, candidates are expected to identify <b>one</b> of the following:</p> <ul style="list-style-type: none"> <li>• Wasting food is wrong.</li> <li>• There is a growing trend around the world to throw away 'ugly' food.</li> <li>• They are edible.</li> <li>• This will have positive environmental impacts.</li> <li>• Fertilisers and transportation ... produce significant emissions which contribute to global warming.</li> <li>• Other reasonable response.</li> </ul> <p>Award 1 mark for a correct answer.</p>	1
1(b)(ii)	<p><b>Explain why the example you identified is a generalisation.</b></p> <p>Main Annotations  </p> <p><b>Indicative content</b></p> <p>A generalisation looks to make broad statements or universal truths about an issue or problem based on a small number of specific cases.</p> <p>Award 2 marks for a response which clearly explains why the identified example is a generalisation.</p> <p>Award 1 mark if the response shows understanding of generalisation but the relationship to the example is not clear.</p> <p>Award 0 if there is no credible response.</p> <p><b>Further Guidance</b></p> <p>1 If Question 1(b)(i) is incorrect, it is very unlikely that 1(b)(ii) will be awarded more than 1 mark; the mark is most likely to be awarded for showing understanding of the nature of generalisation.</p>	2

Question	Answer	Marks																		
1(c)	<p><b>From Source 2, describe the environmental group's perspective on food waste.</b></p> <p>Main Annotations  <span style="border: 1px solid red; padding: 2px 5px; display: inline-block;">E</span></p> <p><b>Table A</b></p> <p>Use this table to give marks for each candidate response.</p> <table border="1"> <thead> <tr> <th colspan="2">Analysis of issues and perspectives (AO1)</th> <th></th> </tr> <tr> <th>Level</th> <th>Description</th> <th>Marks</th> </tr> </thead> <tbody> <tr> <td><b>3</b></td> <td> <b>Clear analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a wide range of elements of the perspective.</li> <li>Frequent use of relevant material and examples taken from the source.</li> </ul> </td> <td><b>5–6</b></td> </tr> <tr> <td><b>2</b></td> <td> <b>Some analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a range of elements of the perspective.</li> <li>Some use of relevant material and examples taken from the source.</li> </ul> </td> <td><b>3–4</b></td> </tr> <tr> <td><b>1</b></td> <td> <b>Limited analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a limited range of elements of the perspective.</li> <li>Little or no use of material and examples taken from the source.</li> </ul> </td> <td><b>1–2</b></td> </tr> <tr> <td><b>0</b></td> <td><b>No creditable response</b></td> <td><b>0</b></td> </tr> </tbody> </table> <p><b>Indicative content</b></p> <p>Candidates may describe the following elements of the perspective:</p> <ul style="list-style-type: none"> <li>Issue – food waste has increased rapidly, and it is damaging the environment.</li> <li>Values – food waste is wrong / throwing away ‘ugly food’ is wrong and unsustainable.</li> <li>Cause – rejection of ‘ugly’ food / overproduction.</li> <li>Consequence – reducing food waste will also positively impact other environmental factors and food shortages.</li> <li>Action – reach the UN Sustainability Goals for food / reduce wasting food during production, processing and consumption.</li> <li>Other relevant response.</li> </ul>	Analysis of issues and perspectives (AO1)			Level	Description	Marks	<b>3</b>	<b>Clear analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a wide range of elements of the perspective.</li> <li>Frequent use of relevant material and examples taken from the source.</li> </ul>	<b>5–6</b>	<b>2</b>	<b>Some analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a range of elements of the perspective.</li> <li>Some use of relevant material and examples taken from the source.</li> </ul>	<b>3–4</b>	<b>1</b>	<b>Limited analysis of the source</b> <ul style="list-style-type: none"> <li>Describes a limited range of elements of the perspective.</li> <li>Little or no use of material and examples taken from the source.</li> </ul>	<b>1–2</b>	<b>0</b>	<b>No creditable response</b>	<b>0</b>	6
